DETAILED ACTION

Response to Amendment

1. This communication is in response to applicant's amendment filed July 31, 2006. Claims 1-3, 5-14, and 16-29 are pending.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

2. Claims 1-3, 5-14, and 16-29 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

With respect to claims 1, 7, 19, and 25, the method and/or device comprising the steps and/or means for receiving OFDM symbol, identifying sub-carriers of interest, generating pilot vector, obtaining interpolation vector, and calculating a dot product to generate an equalization coefficient for sub-carrier of interest has no practical application. The generated equalization coefficient and/or the computed channel estimate have no practical application. Therefore, the claimed invention is directed to non-statutory subject matter.

Claims 2-3, 5-6, 8-14, 16-18, 20-24, and 26-29 are rejected for the same reasons as set forth with respect to the independent claims 1, 7, 19, and 25.

Response to Arguments

3. Applicant's arguments with respect to claims 1-3, 5-14, and 16-29 have been considered but are moot in view of the new ground(s) of rejection.
